

CSC108 FSG

Fri. 11-12pm IB270

Intro & Ice Breaker

Introduce yourself to others...

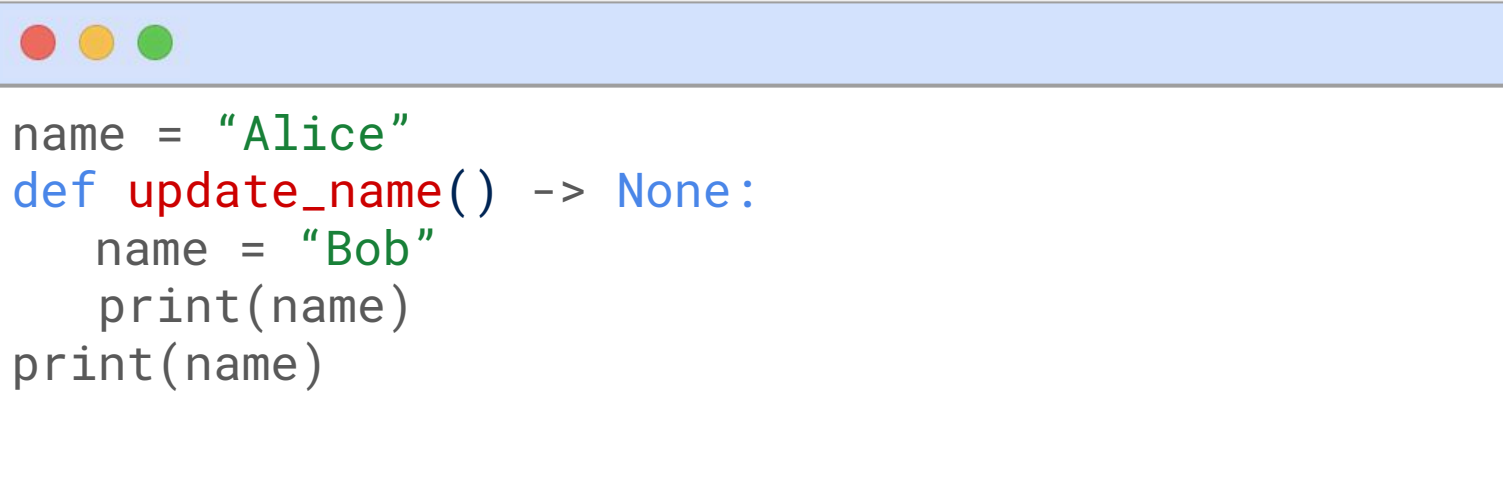

- ❑ Name
- ❑ One fun fact about yourself
- ❑ What you want to get out of the FSGs

Function Knowledge Check

Question : What are components of functions? What should function include?

Scope & Constants

```
name = "Alice"
def update_name() -> None:
    name = "Bob"
    print(name)
print(name)
```

Question : What will be the output?

Activity 1

Write a function that calculates the final price after applying default and extra discounts.

```
def calculate_discounted_price(price:float, extra_discount:float) -> float:
```

Activity 2

Write a function that calculates the volume of a sphere given its radius.

```
def calculate_sphere_volume(radius:float) -> float:
```

Activity 3

Doctest Writing
